Publisher's Announcement

With this issue we present our fifth edition of the Alliance City Directory.

The first sixteen pages contain useful miscellaneous information. On pages 1 and 2 are the ward and precinct boundaries; pages 3 to 5 municipal officers and boards. The fire alarm boxes appear on page 5. Beginning with page 6 is a list of the churches, hours of services and their trustees. Beginning on page 8 is a list of all the lodges of the city, with their times and places of meeting; page 10 incorporated companies; page 12 public school information and pages 14 to 16 useful postal information.

The alphabetical list of names following the street directory includes the names of both men and women 15 years of age and over.

Some street numbers do not correspond with those in the ciy engineers office, but to avoid complications we have taken the numbers appearing upon the houses at the time of enumeration.

To our patrons and friends we extend our sincere appreciation for their assistance and encouragement.

The next edition of the directory will be published in 1908.

Respectfully,

THE R. M. SCRANTON PRINTING CO.

To insure proper rating of doubtful matter it should be brought to the postoffice.

Advise your correspondents of your street address and request that they so direct your mail. This insures prompt delivery and prevents mistakes.

Placing your name and address on upper left hand corner of letter or package will insure its return to you if not delivered, and will prevent its being sent to and opened at the Dead Letter Office.

EDWIN MORGAN, Postmaster.

GENERAL GUIDE TO CLASSIFICATION OF DOMESTIC MAIL MATTER.

FIRST CLASS. Includes all written matter, all matter closed against inspection, and all matter, though printed, which has the nature of actual and personal (individual) correspondence, except that certain writing or printing may be placed upon matter of the second, third and fourth classes without increasing the rate.

SECOND CLASS Includes all newspapers and periodicals which bear the authorized statement: "Entered at the post-office as second-class mail matter."

THIRD CLASS. Includes all printed matter upon paper not having the nature of actual, personal correspondence except newspapers and periodicals bearing the statement: "Entered at the post-office as second-class matter."

FOURTH CLASS. Includes all merchandise and all other matter not comprehended in the first, second, and third classes.

NOTE.—Matter of a higher class inclosed with matter of a lower class subjects the whole package to the higher rate.

SPECIAL FEATURES OF THE U. S. POSTAL SERVICE.

REGISTRY SYSTEM. Reaches every post-office in the world. Insures safe transit and correct delivery. $25 indemnity paid for loss of matter prepaid at the letter rate of postage.

MONEY-ORDER SYSTEM. Provides an absolutely safe and convenient means of transmitting money.

SPECIAL DELIVERY. The immediate delivery of any piece of mail matter at any United States post-office may be affected by affixing thereto a 10-cent special-delivery stamp in addition to the lawful postage.

PARCELS POST. Under special conditions packages of merchandise may be sent by "Parcels Post" to certain foreign countries.

REGISTRY SYSTEM.

SECTION 20.—VALUABLE MATTER SHOULD BE REGISTERED.

REGISTRY FEE, 8 CENTS.

1. Registered mails reach every post-office in the world. The system insures safe transit and correct delivery.

2. In case of loss, the sender or owner of a registered article prepaid at the letter rate of postage, mailed at, and addressed to, a United States post-office, is indemnified for its value up to $25.

3. Valuable letters and parcels, and those which the sender wishes positively to know have been correctly delivered, should be registered.

The registry fee is 8 cents for each separate letter or parcel, in addition to the postage, both to be fully prepaid with postage stamps attached to the letter or parcel.

4. Any piece of mail matter may be registered at any post-office or station thereof, and by any rural free-delivery carriers. In residential districts of cities, letters and packages of first-class matter that are not cumbersome on account of size, shape, or weight can be registered by letter carriers at the house door as safely as if brought to the post-office.

5. In order to have a letter or parcel registered it is necessary merely to have it properly prepared, addressed, and stamped, and the name and address of the sender written or printed on it. It should be handed to the postmaster, clerk, or carrier, who will write out a registration receipt for the sender.

POSTAL MONEY-ORDER SYSTEM.

SECTION 23.—MONEY ORDERS, HOW OBTAINED.

APPLICATION.—The process of obtaining a money order is to fill in a simple form, called an "application," which form is furnished free of charge, and to present such application at the money-order branch of the post-office, where, upon payment of the sum to be sent and of the small fee exacted, a money order will be drawn for any desired amount (but no single order for more than $100,) payable at any money-order office in the United States designated by the applicant. When a larger sum than $100 is to be sent additional orders may be obtained.

At all of the larger post-offices, those of the first, second, and third classes, and at many of the smaller ones. International money orders may also be obtained, payable in almost any part of the world.

INDENTIFICATION.—The person who presents an order for payment must be prepared to prove his identity. In case of payment to the wrong person the Department will see that the amount is made good to the owner, provided the wrong payment was not brought about through fault on the part of remitter, payee, or indorsee.

POWER OF ATTORNEY.—A money order may be paid upon a written order or power of attorney from the payee, as well as upon his indorsement.

INDORSEMENTS.—More than one indorsement on a money order is prohibited by law. One or more additional names, however, may be written upon the back of orders for purpose of identification of payee, or guaranty of genuineness of signature of the payee or indorsee. But if the holder is the second or any subsequent indorsee, to obtain the amount he must surrender the order and make application for a duplicate or a warrant to be issued in place thereof by the Department. The stamp impressions which banks ordinarily place upon money orders left with or sent to them for collection are not regarded as indorsements transferring ownership of the orders or within the meaning of the statute which prohibits more than one indorsement.

REPAYMENT.—A domestic order may be repaid at the office of issue within one year from the last day of the month of its issue.

INVALID ORDERS.—An order which has not been paid or repaid within one year from the last day of the month of its issue is invalid and not payable. The owner, however, may obtain payment of the amount thereof by making application through the postmaster at any money-order office, to the Department, for a warrant for the said amount. The invalid order, if in the owner's possession, must be forwarded with the application.

This Company is under State Inspection, same as National Banks are under Government inspection. This guarantees absolute safety to depositors.

We receive money on deposit in any sum from fifty cents up.

We pay 5 to 6 per cent interest. Banks pay 3 per cent.

We loan money on straight loans to buy or to build homes.

The Borrower may pay this loan off in small monthly payments, or he may pay it all off at any time as suits his circumstances.

Every member of the family should have a savings account—especially the children.

Money paid on a home is an investment and a protection.

When you pay your landlord a month's rent, the money is gone from you forever. When you pay it on your home you save it.

Get a home of your own. See the list of officers and directors above.
